It certainly makes it much easier to calculate how long it will take to go from one place to another when it is a question of what time a train is to call at, say, 22:45 o'clock means a mile or a half mile away.

THE TRAVIS COMMISSION.

Mr. Travis has been in the box all the week. The public would rightly resent the publication of his testimony, which courtesy to the Commission alone prevents our characterizing in the terms suitable to it. We see no prospect of the Commission being concluded before Fall.

The program, which consisted of music, singing and recitation, was excellently put on. An elegant and plentiful repast provided the last enjoyable feature of the evening's entertainment. This interesting entertainment may be congratulated on the success of its first social reunion. Sufficient money was raised to entirely clear off the debt on the building.

Mr. Zerihal G. Mitchell, born in 1897, and said to be the last Maestriello Indian of the blood, writes to the London Journal to inform us that he is now following Indian "Dakota" names—"united," the word for "tribes" being dropped. Michigan means Elk Eye. Ohio means beautiful. Minnesota means water-turbulent. Sioux means enemy in the water. Lakota means water by the land. So he calls us name. Dakota means "head of the river." Nebraska means "flat." Kansas means "smoky." Illinois is a corruption of a word meaning "mankind." Missouri means "great muddy," with "river" dropped.

THE ELECTIONS.

It is a matter of congratulation to this town and district that we will be allowed to vote in the elections on July 1st. We hope that the men of the Northwest will be as zealous in their voting as the men of the Northwest. The election of the Northwest Territories to the Senate and the Commons has passed the Imperial Parliament and awaits the Royal assent. With the passage of this measure the Act of the Dominion Parliament, with the same object in view, becomes law.

The first grant to the Parliament of Canada power to make provision for representation in the Senate or House of Commons of Canada, or any territories, will be for the time form part of the Dominion of Canada, but will not affect any provinces hereafter.

The second clause enacts that any act passed by the Parliament of Canada after the passing of this act for the foregoing purposes is to take effect if not disallowed by the Queen in Council within three months of the Royal Assent. The North West Territories, and it is specifically mentioned also that the number of senators or members of the House of Commons may be increased in such proportion as may be laid down by the Canadian Act granting representation to any province or territory of the Dominion.

It will be a matter of sincere gratification however, to the choices of the electors that he will be able to represent the people of the Northwest Territories at Regina in not itself either important or beneficial unless the members themselves are able and willing to work in the interests and to the advancement of their district. We have plenty of men to pick from in the candidates who have come forward, and the various conditions which they bring to mind in voting, that it is for their district's interests they are acting and not for those of any individual.

Of the five candidates at present in the field, Messrs. Carney, Hogg, Regg, Lander and Cayley, it must be said that they represent collectively every shade of political opinion in the district except indeed the extreme. North West Territories, which in spite of its size and small population, will be able to do anything more than elect a decent and Christian itself. These candidates are men of intelligence and integrity, and although owing to the unfortunate necessity of having to pick and choose amongst them, we cannot urge them all upon the electors, we can heartily recommend the men who have come forward.

Our support, for reasons which will be detailed further no doubt during the campaign, must be given, however, in this case to the two last named gentlemen

Messrs. Lander and Cayley, who we believe will be competent to represent our interests well at Regina, and about whose sympathies with all that tends to develop and improve the Canadian Empire, we do not doubt whatever. Mr. Lander has lived here for years, has large interests in the country, and knows what the needs of the district are. In the matters of obtaining grants to improve the Macleod and Edmonton trails and for school purposes, as well as in the equally important question of securing sufficient legislation for the Dr. MacLennan, we will speak hard and persistently.

The Colonization Committee have received a letter from the Winnipeg Italian Band, offering their services for Dominion Day. A complete programme of the sports will be drawn up to-night.
